### BIOGRAPHICAL NOTE

Thomas Taylor Warren, known as "T" to his friends, has been a part of NASCAR since its formative years. He got into photography at the age of ten, while playing with a card-board box, pretending it was a camera (with no film). By the time he got into high school, he was using a real camera, developing photos in his own darkroom. Afterwards, he attended the Rochester Institute of Technology in New York, where he learned more about the craft of photography.

T's introduction to auto racing came by way of his brother, who bought a midget race car and took it to a race in the Washington, D.C. area, where he was living at the time. From that moment on, T was hooked motor-sports photography. Since then he has combined his two passions and established himself as one of the most important photographers in NASCAR. Over the years, he has become a fixture on the racing circuit, working with the biggest names in the sport.

Among his accomplishments in the sport was his photograph of the finish of the inaugural race of the Daytona 500. It was a very close finish and the officials declared Johnny Beauchamp the winner. However, once T developed his photos it was clear that Lee Petty nudged out Beauchamp. After three days of investigation by a number of officials and additional photographic evidence, NASCAR officially declared Lee Petty to be the real winner.

In 2006, the International Racing Hall of Fame in Talladega, Alabama, conferred on Warren the *Henry T. McLemore Award* for achievement in journalism. Previously, this award had only been given to writers and broadcasters, so presenting it to a photographer is a first for the IRH and the McLemore Award.

### SCOPE AND CONTENT NOTE

Collection 337 contains the collected and accumulated materials of Mr. Thomas "T" Taylor Warren, a long-time motor-sports enthusiast and photographer. These materials include NASCAR and ARCA press kits and media guides from racers, corporate sponsors, and race tracks; as well as a wide assortment of various promotional memorabilia generated by motor-sports profession. In addition, there is considerable published material in the collection in the form of sports magazines with articles about auto racing, NASCAR magazines, automobile and racing magazines, and motor-sports newspapers.

As this collection is still being processed and also because more material is expected to arrive in the future, the arrangement of this collection is still in flux and subject to change. In fact, it is likely to change as processing and accessioning continue.

Bulk Dates: the majority of the information that we have organized so far include material mostly from the 1990s, though a generous portion is from the early 21<sup>st</sup> century, ending around 2003. The 1970s/1980s are also represented (particularly in regards to newspapers), though much less it seems than the 1990s; and there are a very few items dating as early as the 1940s in the collection. As we are still receiving materials from Mr. Warren, there may be new boxes arriving that contain more recent material, or material that is older, or both.

## CD-ROMs

[These CD-ROMs are *mostly* media-guides/press-kits, but of course in a digitally condensed package rather than the glossy paper/spiral-bound/magazine format; at the moment there aren't that many included here, but this could easily grow as we receive more boxes from Mr. Warren. It seems that more and more drivers and sponsors are releasing their information on CD-ROM rather than relying on the more expensive (and less durable) traditional paper-format.]

### **Speedways**

[Speedway information and statistics are included in this rather large section -- most of it consists of single pages/pieces of paper and was sorted on a folder-by-folder basis by someone working on the collection in the past. It does seem that some of the (speedway) miscellanea found in other, more unorganized boxes could possibly be worked into this already large series.]

### **Magazines & Souvenir Programs**

[Magazines *directly* related to NASCAR and auto-racing have been kept with the collection (though they can be easily separated at any time), while other more general automobile magazines once belonging to T. Taylor Warren have been separated from the collection. They are sorted by year, and then by month -- those without information about the month are to be found at the end of each sub-sub-series. Duplicates are indicated by the numbers in parentheses.]

### **Newspapers**

Area Auto Racing News (1 box)  
FasTrack (1 box)  
Motorsport America (1 box)  
NASCAR Winston Cup Scene (4 boxes)  
National Speed Sport News (4 boxes)  
Speedway Scene (4 boxes)  
Winston Cup Beat (1 box)  
Newspapers: *Others* (6 boxes)

Two (2) boxes of various newspapers/periodicals/newsletters that focus explicitly on NASCAR, whether general news or certain tracks/races; these are mostly smaller publications from less-prominent presses. These need to be organized a bit better, though they are sorted in to separate boxes and **are worth keeping**.

Four (4) boxes of non-NASCAR papers with *some* articles pertaining to the sport; these tend to be mainstream/local papers (*The Charlotte Observer*, *The Daytona Beach News-Journal*, etc.) with an article or two in them about NASCAR. They often come from cities where the racetracks/speedways are located (Daytona Beach, Martinsville, et al). However, Mr. Warren saved the entire paper rather than simply clip out the relevant article(s) -- these can probably be recycled and/or discarded unless alternate instructions or reasons for keeping them are given.

### **Newspaper Clippings**

[Unorganized as-of-yet, though there are *many* clippings found in quite a few boxes, particularly the 6 *Other* boxes listed directly above; however, the question remains: are these actually worth keeping and organizing?]

### ***Subseries 6 – Races (institutional occasions)***

[A race, which takes place annually, may be held at one speedway one year and another in a later year. This series lists races by their title, rather than the motor speedway where the race was held. Adam thought this series might not be necessary]

**SSS. Winston Cup- Media, Press, Travel Guides for Winston Series Races.**

### ***Subseries 7– Photographs***

[This section is unorganized as-of-yet, though I have come across quite a few photographs in some of the boxes that I've gone through, though unfortunately I didn't separate many of them.]

### ***Subseries 8-- Other Information?***

**Misc. Papers -- 7 boxes**

Unorganized paperwork, loose papers

[As listed above, there are seven (7) boxes in this "series," though the information contained within these boxes is so scattered and disorganized that there is virtually no telling exactly what is located in these boxes; a careful process of slow-sorting is certainly in order. Some of the information in these boxes could be *definitely* be incorporated into other series, particularly **Series 1: Drivers**, **Series 4: Speedway/Racetrack Info & Records**, and **Series 2: Photographs** (in fact, possibly all of them). In order to make the boxes seem less cluttered, I roughly organized stacks of paper into folders to make these unwieldy 'chunks of data' more manageable.]

[This series will obviously need to be renamed and/or entirely eliminated eventually; it may, in fact, be completely subsumed into the other series'.]

***Series III- ARCA***
